

Excellence Through Innovation

AI powered Solutions for Justice

**MyProbation
Mobile Application**

MyProbation Mobile Application

Early engagement is key to successful rehabilitation, helping individuals understand their **recovery journey** and what is expected of them on **probation**.

Unilink's **MyProbation service** bridges the gap between individuals **leaving custody or under community supervision** and their probation officers, providing a more effective alternative to traditional communication channels

Through a **mobile app and website**, MyProbation **improves communication, fosters open engagement, and offers crucial support** during the challenging **readjustment period** after release or sentencing in the community.

Connecting People

Strengthens the relationship between probation officers and individuals, leading to better rehabilitation outcomes.

Encourages Help Seeking

Supports partnership working and promotes a proactive approach to seeking assistance.

Saves on Postage

Reduces administrative costs and saves time by eliminating reliance on postal communication.

Simple Communication

Provides a quick and effective way to engage with probation staff.

More Autonomy

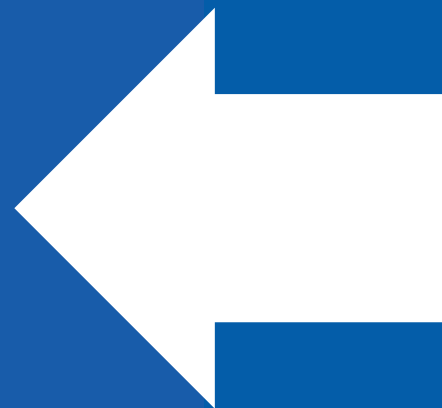

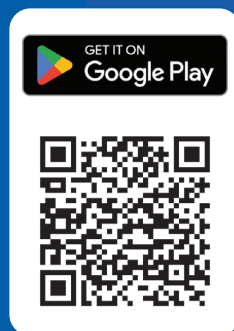

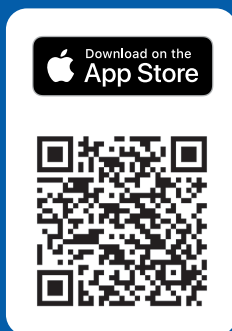

Empowers individuals on probation by fostering a sense of agency and responsibility.

Remote Check-In

Enables users to check in remotely from a home or designated location via GPS verification.

Download the App

Supporting Rehabilitation with MyProbation

Unilink's **MyProbation** application provides a **direct and structured communication channel** between probation officers and individuals under supervision.

It enables probationers to **request additional support or referrals** to key partners, such as **employment services or substance misuse providers**, ensuring they receive the help they need.

The service supports **two-way structured messaging**, allowing officers to **send appointments, reminders, and pro-social messages**, while also responding to requests and reviewing documents or proof of absences. By simplifying **administrative tasks**, MyProbation **reduces workload for probation teams** and improves **sentence compliance**, fostering **better rehabilitation outcomes**.

Promotes Engagement

A real-time, user-friendly solution that enhances interactions between probation officers and service users.

Saves Time

Reduces administrative workload and costs, allowing probation teams to focus on rehabilitation.

Managing Absences

Provides a faster, fairer process for tracking and managing absences.

Support

Strengthens encouragement and guidance for individuals on probation.

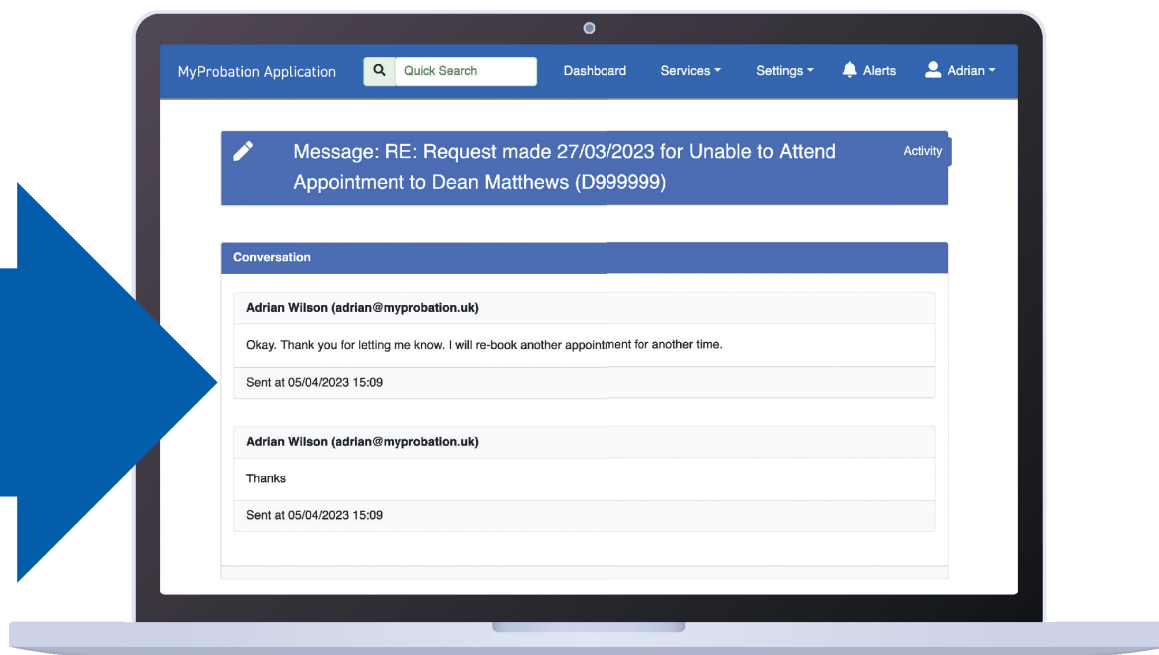

Probation Appointments

Ensures easy access to appointment details, reducing missed sessions.

Video Calls

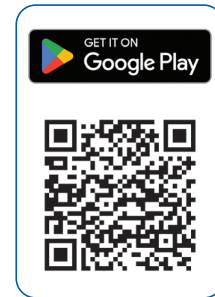

Facilitates secure virtual meetings between users and probation officers, improving accessibility and engagement.

Downloading the App

The **MyProbation mobile app** is available for **Apple iOS** and **Android** devices and can be easily downloaded from the **App Store** or **Google Play Store**.

Once approved by the **Probation Service**, users can securely **connect with their probation officer and local teams**, ensuring **seamless communication and support** throughout their probation journey.

Unilink: Leader in Justice & Corrections Technology

Unilink Software is a globally recognized leader in technological innovation for the Corrections, Justice, and Immigration sectors. Established in 1994, we have spent over three decades driving digital transformation through AI, machine learning, and integrated solutions that enhance security, efficiency, and rehabilitation outcomes.

With a team of over 200 experts, we develop proven, award-winning solutions in close collaboration with correctional professionals and international subject-matter experts. Our advanced technology streamlines offender management in prisons and the community, improving operations and public safety worldwide.

Unilink's AI-powered solutions provide actionable insights that help reduce recidivism, detect self-harm risks, accelerate asylum processes, and identify candidates for early release. Our solutions are widely implemented across the UK, Europe, Australia, and New Zealand, driving the digital transformation of prison, probation, and immigration services on a global scale.

In 2023, Unilink was honored with the King's Award for Enterprise in International Trade, reinforcing our status as an industry pioneer.

As we continue to push the boundaries of technology, we remain committed to shaping the future of justice, corrections, and secure health with innovative, intelligent, and impactful solutions.
